EN : Identifying on-trend colours, turning them into effective designs and bringing out their beauty with top-quality finishes... We offer shapes that soften strong colours, or add character to gentler shades.

Achieving the perfect balance between form, material and colour, Oxibis once again this year brings you striking and harmonious collections.

As you might expect from a renowned colour expert!

Our frames are designed and manufactured with the greatest of care. You'll find tips in the catalogue on how to maintain the quality of your frames. Look out for these icons:

DE : Trendfarben erkennen, effektiv in Design umsetzen und mit einer Oberflächenbehandlung veredeln. Formen, die starke Farben weicher zeichnen und zarten Nuancen Charakter verleihen...

Oxibis steht für Ausgewogenheit von Form, Material und Farbe und wird Sie auch dieses Jahr mit harmonischen und strahlenden Kollektionen überraschen.

Ihr Farbexperte!

Wir achten auf besondere Sorgfalt beim Entwurf und der Herstellung unserer Fassungen. Der vorliegende Katalog hilft Ihnen mit Pflegetipps lange Freude an der Qualität der Fassungen zu haben. Folgende Piktogramme führen Sie durch den Katalog:

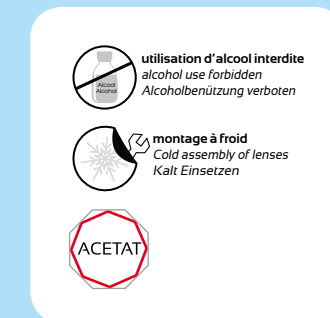

Repérer les couleurs tendance, les décliner efficacement en design et les sublimer avec des traitements de qualité ...

Proposer des formes qui adoucissent les coloris forts, ou donnent du caractère aux nuances douces.

Pur équilibre entre les formes, les matières et les couleurs, Oxibis® vous propose cette année encore des collections pétillantes et harmonieuses.

C'est ça être expert de la couleur !

Nous mettons un soin tout particulier dans la conception et la fabrication de nos montures. Vous trouverez dans ce catalogue quelques conseils pour préserver cette qualité. Au fil des pages, repérez et référez-vous à ces pictos :
